## SUMMARY

Software Engineer with proven experience building scalable APIs and web systems using Python and Django. Skilled in UI design with Tailwind CSS, Mantine, and Shadcn. Currently expanding into full-stack development with React and Next.js through practical projects. Passionate about clean architecture, collaboration, and continuous growth.

## EXPERIENCE

### Freelance Software Engineer

Dec 2024 – Present | Dhaka, Bangladesh

#### 🏠 [Upwork](#)

- Providing full-stack development services to international clients, focusing on Python, Django, PostgreSQL, React, and Next.js.
- Developed custom APIs, integrated third-party services, and deployed web applications.
- Continuously exploring new frameworks and tools to stay current with evolving technologies.

### Software Engineer

Mar 2024 – Dec 2024 | Dhaka, Bangladesh

#### 🏠 [Cloud Development & Data Analytics Limited](#)

- Built and deployed robust back-end systems with Django, SQL Alchemy and REST APIs.
- Led code reviews to improve codebase quality and adherence to best practices.
- Participated in regular knowledge-sharing sessions to stay aligned with modern tech trends.

### Junior Software Developer

Feb 2023 – Feb 2024 | Dhaka, Bangladesh

#### 🏠 [REPLIQ Limited](#)

- Developed scalable web applications with Python and Django.
- Mentored interns and assigned tasks, improving team productivity.
- Named "Employee of the Month" for consistent delivery of high-quality code.

### Junior Software Developer Intern

Dec 2022 – Feb 2023 | Dhaka, Bangladesh

#### 🏠 [REPLIQ Limited](#)

- Built RESTful APIs with Django and DRF using Test-Driven Development (TDD).
- Collaborated with designers and engineers to build seamless user experiences.
